Sweet Gems – game rules

Sweet Gems is a 6x5 videoslot game with a colourful, fairy tale theme. Wins are awarded if enough of any symbols land anywhere on the screen, and in free spins, multipliers can land to boost winnings. The game potentially pays wins of more than 12,000x.

The theoretical return to player through 1 billion simulated game plays is:

Return To Player (RTP): 96.13%
Buy into Bonus RTP: 96.06%
Double Chance RTP: 96.03%

GAME RULES
- 6x5 reel videoslot with wins paid based on the number of instances of individual symbols in a single panel.
- There are 12 symbols, 9 paying symbols, a bonus scatter, and Cascade and Sticky multiplier symbols.
- The bet level is set using the BET LEVEL selector.
- Autoplay will be automatically terminated if the Free Spins feature is triggered.
- The player is paid when 8 or more of any matching symbol or symbols appear anywhere on the panel according to the Paytable.
- Simultaneous wins from different symbols are added and paid.
- Cascade and Sticky Multipliers are only available during the Sweet Free Spins feature.
- Freespins are paid according to the bet amount prior to entering Freespins Mode.
- Autoplay is not available in all jurisdictions.
- Scatter wins are added to base wins.

GAME FEATURES

Cascading spins

- In any paid spin or free spin if a win occurs, all winning symbols are removed from the reels and are replaced from above by new symbols.
- The modified panel is evaluated again and any wins paid.
- Cascades continue indefinitely until no new wins are created.

Sweet Free Spins

- The bonus feature will be triggered if 4 or more Bonus Scatters appear on the panel in a paid spin or subsequent cascade spin and award 10 free spins.
- If three or more scatters appear on an initial free spin panel or on a subsequent cascade panel then an additional 5 free spins are awarded.
- Scatters pay during base game and free spins according to the Paytable.
- During free spins both Cascade Multipliers and Sticky Multipliers can appear.

Sweet Gems – game rules

- Cascade Multipliers have values of between x2 and x100 and remain on screen for the duration of a cascade sequence and are then removed.
- Sticky Multipliers have values of between x2 and x5 and remain on screen for the remainder of the free spins.
- At the end of a cascade sequence, the total cascade win is multiplied by the sum of all Cascade Multipliers and Sticky Multipliers.

Buy Into Bonus

- Players can opt to buy their way into the Sweet Free Spins bonus feature
- The opt-in cost is displayed on the button and is equivalent to 100x the player's current bet level.
- The player will be awarded 10 free spins.
- Not available in all jurisdictions.

Double Chance

- Players can opt to pay extra to double the chance of triggering the bonus feature on any single paid spin.
- The cost is displayed on the Double Chance button and is equivalent to 25% more than the player's current bet level.
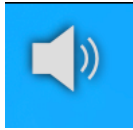

GAME FUNCTIONS

|	
	SPIN BUTTON Click to start a game round at the current bet value.

	MENU BUTTON

|		
		Click to open the settings, paytable and game rules.
		AUDIO BUTTON Click to toggle all audio on/off.

POP-UP MENUS

Bet Amount

The bet amount pop-up menu displays all available bet options. The currently selected amount is highlighted white. The player can also click on the 'Close' icon, to return to the main game screen without making any changes to the bet amount.

Autoplay (not available in all jurisdictions)

The autoplay pop-up menu allows the player to select a number of spins to autoplay. To do so, the player clicks on one of the available spin number options. This button will then highlight white. The player must then set a loss limit (must be greater than 0) and then click on the spin button to confirm their intention. The menu is then hidden and the player is returned to the main game screen, with autoplay active.

The player may also choose to set optional conditions to automatically stop autoplay. These include:

- Stop autoplay on a single win of a player-stipulated value.
- Stop autoplay if the balance increases by the amount the player specifies.

Note: If you are disconnected while playing, all autoplay settings will return to default when you reload the game.

GAME SETTINGS AND REGULATORY

Current time

The game client shows the current time at all times (in the bottom left of the screen). The time is acquired from the player's computer or device system clock.

ADDITIONAL INFORMATION

The following processes may be subject to the terms and conditions of the gaming site.

- The process of managing unfinished game rounds.
- The time after which inactive game sessions are automatically ended.

In the event of malfunction of the gaming hardware/software, all affected game bets and payouts are rendered void and all affected bets refunded.
