Game Name: Sweet Gems

GameID: SweetGems

Release Date: 22nd June 2021

Sweet Games is a 6x5 videoslot game set in a magical fairy tale land where Sweet Gems literally fall from the sky to create fantastic cascading wins.

Wins are awarded if eight or more of any sweet gem symbols land anywhere on the screen, after which a cascade occurs in which all winning symbols are removed from the screen to be replaced by colourful new symbols from above, offering the potential for yet another win. Cascades will keep on coming with every winning panel.

If you land four or more of the Bonus Scatter symbols – a cool, animated crown – you will trigger the Sweet Free Spins bonus feature with an initial ten free spins. An additional five free spins can be triggered every time three or more Bonus Scatters land

During the Sweet Free Spins the total cascade win can be multiplied by Cascade Multipliers (stay for the remainder of the sequence) or Sticky Multipliers (stay for the remainder of the free spins) to deliver terrific big win potential.

Players also have the option to increase the stake by 25% to double the chances of triggering the Sweet Free spins bonus feature, or can opt – where regulations allow – to pay 100x their stake to buy their way straight into the bonus feature.

Sweet Gems can deliver wins of more than 12,000x the player's stake.
