Book Of Spies: Mission X – game rules

Book Of Spies: Mission X is a feature-rich 5x4, 'ways pays' videoslot with a theme in which a team of special operatives are attempting to hack the ultra-secret digital vault of an evil spy master in order to steal his 'Book Of Spies'.

The game features xWays™ (mystery symbols that expand the number of paying ways on a reel), xNudge™ (upwardly expanding wilds with incrementing win multipliers) and tumbling scatters (free spins are awarded according to how many symbols they traverse over).

xWays and **xNudge** are trademarks of Nolimit City and used under license.

Return To Player (RTP): **96.1%**

GAME FEATURES

xWays™ Mystery Symbols

- A mystery symbol that can hold 2 to 4 of the same symbol inside it and will expand the reel to be up to 7 symbols high to increase the number of possible ways.
- A single xWays™ mystery symbol can appear on each of reels 1,3 and 5 (base game) and on all reels in the free spins round.
- Reels may be expanded up to 5,488 ways (base game) and 16,807 ways (free spins).
- All xWays™ symbols on a panel will expand to reveal the same paying symbol.
- The xWays Mystery symbol can expand to reveal any high-paying or low-paying symbol in the paytable. The mystery symbol cannot reveal a wild symbol and a bonus symbol.

xNudge™ Multiplying Wilds

- An expanding Wild symbol that exists on reels 2 and 4 and, if present on the panel, will always nudge upwards to replace all symbols above it.

Book Of Spies: Mission X – game rules

- In free spins, each nudge also increases the Wild Multiplier by +1 to a maximum of 4X or, if combined with an xWays™ Mystery Symbol landing above it, to a maximum of 7X.
- Two Wild Multipliers add to each other for a total Wild Multiplier on the ways win(s).
- In the base game maximum possible win multiplier is 8X and in the freespun game maximum possible win multiplier is 14X.
- If a winning combination includes an xNudge symbol, the xNudge symbol expands first and the normal winning combination is paid and then the multiplier is applied.
- xNudge symbols can only appear on reels 2 and 4 in the base game. The same functionality also applicable to free spins.

Secret Agent Free Spins

- Bonus Scatter symbols can appear on reels 1, 3 and 5 in both the base game and free spins.
- Landing three Bonus Scatter symbols will trigger Secret Agent Free Spins
- The number of free spins awarded by each Bonus Scatter symbol is 1 plus the number of nudges required to nudge the symbol to the bottom position of its reel, each nudge awards a spin.
- The minimum number of free spins awarded is 3, the maximum is 21.
- Before the free spins start, one of the four high-paying symbols is selected to be the special symbol.
- An xNudge Multiplying Wild may expand over a Scatter symbol in both the base game and free spins, but if sufficient Scatters exist to trigger or re-trigger free spins, then the Scatter symbol will 'shine through'.
- The reels spin as normal and then, when the reels have been evaluated, if 3 or more reels contain at least one instance of the special symbol, a full height version of the special symbol will drop down to cover their entire reel and the panel will be evaluated anywhere for the selected special symbol.
- Free spins can retrigger.
- The same special symbol is used throughout the free spin session. It is not re-selected if free spins are re-triggered.
- At the end of free spins, the total win from free spins is added to any wins from the round that activated free spins.
