GAME INFO

Game Name: European Roulette (desktop and mobile)
GameID: EuropeanRoulette
Release Date: March 2020
Description: European Roulette has been designed with the particular demands and nuances of mobile gameplay in mind and brings the ultimate roulette experience to all online audiences.

While roulette enthusiasts can still look forward to seeing a highly-realistic 3D roulette wheel with true-to-life ball behaviours, they will also enjoy the optimised-for-mobile user interface and rapid loading.

As players of this classic game would expect, the game's standard table view offers all of the **traditional inside and outside bets**. Players can also place one of the wide range of **special bets**, as well as **statistics-based bets** such as hot and cold numbers. Players can, of course, switch to the **racetrack** view to place one of a series of **classic call bets**. They are also able to save up to ten **favourite bets** to make reusing them a very easy action. The **spin result history** and other betting information, coupled with the slick UI and modern visual design, all combine to make this a game intended to delight players.

From the super-slick chip and bet selection process, to the lavishly-rendered 3D wheel and luxurious soundscape, players will love playing this game.
