Fruits & 777's is a new, textbook retro video slot for those players who yearn for classic, 'old-skool' fruit machine simplicity coupled with high prizes and volatility.

This game is simple and gets straight to the point - no complex game rules to read through here! It is easy to play, and it contains the most familiar of reel symbols you could think of. There are five reels (in a 5X3 array) and five paylines, paying left to right. However, with the top symbol (the '7') paying 3,000X line bet, and with 7's stacking on all five reels, the winning possibilities are still very real attractive.

The symbols are bright and colourful, standing out well from the mystical, changing coloured background. stand out within a dull, black, rectangular frame. The game screen is minimalist in nature and the controls very simple all which are perfectly accompanied by the old school array of sound effects.
