## FEATURES

- **Expanding Reelset:** The game starts with some symbols hidden and 15 paylines. A win clears some of these hidden symbols, increasing the number of paylines (to a maximum of 65) and triggering a re-spin. If during a re-spin, the player does not land a win then the reels revert to the starting state.
- **Insider Tips:** Wild symbols landing on the reels unlock increasing Insider Tips. When enough Wilds have been collected, the player can buy Insider Tips which simulate one, two or three consecutive wins, thus taking the player nearer to triggering Free Spins.
- **Buy Into Bonus:** The player can pay to go directly to the Free Spins Mode.
- **Unlimited Free Spins Mode:** Six consecutive wins take the player to the Free Spins Mode. Free Spins are unlimited, culminating only after three Closing Bells have appeared on the reels (only one possible per spin).

- **Insure Against the Closing Bell:** The player can opt to pay for insurance with the goal of extending their Free Spins sequence.
- **Bet On The Market:** Wins in the Free Spins game are paid out either from left-to-right, or right-to-left depending upon whether it is a Bear or Bull market. The player can opt to bet on the market outcome. If they chose correctly, any wins are doubled.
