

# GAME RULES

## ABOUT THE GAME

- 15 Armadillos is a 5 reel, 3 row, 243 ways game paying left to right featuring wild respins, pick accumulators, Free Spins with a pre-free spins pick bonus booster feature, and a BONUS GAME feature.

## WILD RESPINS

- Landing one or more wilds will create a respin after all wins are paid for the spin. If one or more extra wilds land on the reels during a respin, another respin will be awarded. More than one wild can land on any respin, but a maximum of one wild will land per reel on each respin.
- If three or more wilds are on the reels after all respins are complete, the BONUS GAME feature will trigger.
- The Free Spins cannot be triggered during the Wild Respins Feature.

## BONUS GAME

All wilds that lock onto the screen during the wild respin feature are converted to Armadillo credit symbols and awarded random credits accordingly. Other symbols disappear, and these remaining positions on the reels will spin independently for three link spins to try and land more armadillo credit symbols. If at least one armadillo credit symbol lands on a respin, the number of link spins is reset to three.

There are four different armadillo credit symbols that may land during the link spins:

- Regular Armadillo credit symbol – Awards from 1x to 50x bet.
- Sum Armadillo credit symbol – Awards the sum of all Armadillo on the screen. Example: If there are three Armadillo coins on the screen [1x bet, 1x bet, 1x bet] and a 1x bet Sum Armadillo credit symbol lands, the Sum Armadillo Credit symbol will take the sum of all the other coins (3x bet total) plus its own value (1x) and add it to its own starting value (1x) for a total win amount of 5x bet.
- Spread Armadillo credit symbol – If the spread symbol lands on the reel, it will spread 1-3 additional regular coin symbols randomly anywhere on the reel unoccupied by other coins.

- Expanding Armadillo credit symbol – Coin awarded on all positions in the same column and these positions are filled with coins if they have not already, awarding the next highest prizepot. Completely filling 1, 2, 3, 4, or all 5 columns will award the Mini, Minor, Major, Mega, or Grand prizepot, respectively. Only the highest prizepot is awarded at the end of the link in addition to all the other coin wins.

## PICK ENHANCEMENT ACCUMULATION

Each of the five animals has a corresponding pick bonus accumulation meter, which progresses with wins. Initially, the number of picks for each bet level begins at 3.

- The animal pick enhancement accumulation feature is specific to each bet level, and changing the bet will restore the previously stored symbols in the bonus accumulation meter.
- While playing the base game, each win made on one of the animals will fill up its corresponding meter. Each time an animal meter completely fills, the picks shown for the animal increment by 1 and the meter resets toward progress for an additional pick. When the free spins begin, the player is awarded the number of picks that were accumulated for the selected animal before starting the free spins. After the free spins, the number of picks is reset to 3 for that animal.
- The pick meters increment to a maximum of 10 picks.
