Game Name: Lara Jones Treasures of Egypt 2

GameID: Cleopatra2

Release Date: 9th March 2021

Lara Jones Treasures of Egypt II is a high volatility, 5X3 videoslot with ten paylines and a maximum win of over 17,000X.

Our famous, intrepid and alluring British explorer, *Lara Jones*, is on another exciting quest; to return to the tomb of the once mighty and all-powerful Queen of Egypt, Cleopatra. Lara's mission? – to find the priceless treasures hidden deep inside.

The base game benefits from **Cleopatra Spins**, a random feature where the player will see their winning symbols stick, and a series of re-spins keep occurring until the winning panel can no longer be improved. Expect to see some big wins from this feature alone!

The free spins feature is where the epic action happens, and it's all about the sticky wilds. Players have two options once free spins is triggered – do they want the chance to win often, or to win big? The lower volatility option sees the standard pay table doubled, whereupon all wilds become sticky for the rest of free spins. The high volatility option retains the base game pay table, however as well as having sticky wilds, if more than wild lands on the same reel, they all become x2 or even x3 wild multipliers. This gives the potential for wins in excess of 17,000x.

All base and feature wins can be entered into the **Gamble Ladder** and **Card Gamble** to potentially increase them (up to €30,000).
