GAME RULES

ABOUT THE GAME

- Aladdin's Rollover Respins is a 3 row by 5 reel all scatters game featuring respins and increasing multiplier reel incrementors.
- The actual payout equals the sum of the dynamic paytable values corresponding to each symbol won. Simultaneous or coinciding wins are added.

Wild Lamp

- One or more [Lamp] may appear on the reels during the base game.
- [Lamp] substitutes for all symbols except for [Scatter]. Any win with at least one [Lamp] contributing toward the win triggers the Rollover Respins Feature.
- It is not possible to land additional wild [Lamp] during respins. Wild [Lamp] does not appear in the Free Spins.
- When a full sticky column containing a [Lamp] is created during the rollover respins feature, the column will turn into a [Genie] indicating a Genie reel rollover will be awarded as soon as a non-sticky respin occurs or when the entire screen is sticky.
- A Genie reel rollover will double or triple the amount of the current multiplier. When multiple reels rollover simultaneously, regular reel rollovers are first added to the current multiplier before doubling or tripling the multiplier from the Genie reel rollover.

Sticky Scatter Pays

- When 5 or more of the same symbols land on a single spin including at least one wild [Lamp], these symbols will stick and activate the rollover respins feature.

- The counter dynamically appears and keeps track of how many of each symbol have been stuck to the reels.
- The multiplier increases by +3 for each full sticky column of 3 high symbols, +2 for a full sticky column of any animal character, or +1 for each full column of any other sticky symbol.
- The multiplier does not apply to the free spin awards bonus.
Free Spins Accumulation

- During the initial base game spin and all respins, free spins scatter symbols are accumulated.
- Free spins are awarded if through the duration of respins 3 or more [scatter] symbols land in total.
- 3, 4, 6, or 8 free spins are awarded for landing at least 3, 6, 9, or 12 [scatter] symbols respectively.
- [Scatter] accumulation is reset to zero at the end of each spin.

Free Spins

- After triggering the free spins with 3 or more [scatter], the player is awarded free spins equal to the corresponding number displayed above.
- The player picks one of the 15 boxes displayed to reveal a symbol.
- This symbol revealed requires only 3 or more symbols to stick and trigger the rollover respins.
- A [Lamp] is no longer required to trigger the respins and multiplier accumulation does not reset for the entire duration of the free spins.
- The maximum number of respins cap is 100 for each free spin.
