

Joker Classic is a 5 reel 10 line video slot featuring stacked wilds pay both ways and respins.

The Paylines are first evaluated left-to-right on adjacent reels starting on the leftmost reel and then evaluated right-to-left on adjacent reels starting on the rightmost reel. Only the longest matching combination per winning line is paid for each direction. 5 of a kind combinations are only paid out from left to right. Simultaneous or coinciding wins are added together. The actual payouts equals the sum of the dynamic paytable values corresponding to each line won. Game plays on total bet.
