

GAME RULES

PAWS AND CLAWS – A TAIL OF FORTUNE

- Paws and Claws is a 6 reels slot with reel heights of 2 3 4 4 3 2 – 576 ways (1152 both ways) in the base game and 3 4 5 5 4 3 – 3600 ways (7200 both ways) in the free games paying both left to right and from right to left. For simplicity, we show the amount won in the payable for 6 of a kind including both left to right and the right to left win.
- Only the longest matching combinations per winning way is paid.

WIN WAYS

- Identical symbols from left to right and from right to left create a way win regardless if the symbols align on the rows.
- The ways are first evaluated left-to-right on adjacent reels starting on the leftmost reel and then evaluated right-to-left on adjacent reels starting on the rightmost reel.
- If a column is missing a symbol from left to right or right to left, further identical symbols are not counted as part of possible wins for that symbol.
- Simultaneous or coinciding wins on different ways are added.
- The actual payout equals the sum of the dynamic payable values corresponding to each way won.

MYSTERY SYMBOLS

- Boxes are mystery symbols. During base game, each time they land they will either trigger the Mystery Coin Reveal feature or they will all turn into the same symbol, which can be any other symbol except for the free spins scatter symbol.
- The mystery symbols can also reveal into a wild symbol.
- Sometimes they reveal coins which will trigger the mystery coin feature.
- Mystery Symbols are on reels 2, 3, 4, and 5 only.

WILD

- Wild substitutes for all symbols except free spin scatters.
- Wild appears only from Mystery Symbols on reels 2, 3, 4, and 5.

MYSTERY COIN REVEAL

- During the base game, when the mystery coin reveal is triggered, the Mystery Symbols reveals different or same coins randomly instead of identical symbols on each position.
- Coins instead reveal independently showing awards of x1, x2, x5, x10, x20, x50, x100 or x1000 or a collect symbol that will collect all other coins to make positions for more coins.
- Unless a collect symbol lands each symbol position only reveals once and always lands a symbol.

- If a collect symbol lands, symbols collected are cleared and the cleared positions will create new mystery symbols that will each reveal one extra coin. In the base game, a maximum of one collect symbol can appear and can only trigger when a minimum of 3 coins appear.
- In the Free Spins, a maximum of one collect symbol can appear per each free spin mystery coin reveal trigger as well. It can only trigger when a minimum of 3 coins appear.
- Additionally, the free spins mystery coin reveal can award coins of x1, x2, x5, x10, x20, x50, x100 or x1000, a collect symbol, a +1 free spins symbols, a +2 free spins symbol, or a +5 free spins symbol.
- The addition free spin symbols add extra free spins to the current free spins session.

FREE SPINS

- Land 3, 4, 5 or 6 free spin scatters anywhere to win 15, 30, 50 or 100 free spins respectively.
- During Free Spins reels grow to 3 4 5 5 4 3 and Mystery Symbols land a lot more often with a higher chance to reveal wilds and mystery coin reveals.
- During Free Spins, the Mystery Coin Reveal can also reveal +1, +2 and +5 free spin symbols in addition to the x1-x1000 coins and the collect symbol.
- Landing 3, 4, 5 or 6 scatters during free spins can also retrigger the free spins with an additional 15, 30, 50 or 100 free spins respectively.

BUTTON FUNCTIONS

- MENU - click to open game's settings and rules
- BET - click to change your bet for spin
- HOME - redirection to home page

GAME RTP

- Regular game RTP was determined by running a simulation of 1,000,000,000 rounds at the same bet level and has determined an average RTP of 94.23% by taking the total amount won and dividing it by the total amount bet.
- Buy Bonus RTP was determined by running a simulation of 100,000,000 Buy Bonus rounds at the same bet level and has determined an average RTP of 94.32% by taking the total amount won and dividing it by the total amount bet. Buy bonus may not be available in certain markets.
- The base game average RTP was determined by Monte Carlo simulation of 500 million regular bet spins by taking the total amount won and dividing it by the total amount bet. The buy bonus average RTP of the buy bonus was determined by Monte Carlo simulation of 500 million buy bonus rounds by taking the total amount won and dividing it by the total amount bet.
