## GAME DESCRIPTION

Legend has it that in traditional Chinese mythology, there are some rare beasts, and if someone is lucky enough to come across these rare creatures, he or she will be blessed with great good fortune. The world generally calls these rare beasts "Auspicious".

These beasts also had the magical ability to control the "Feng Shui" of the four directions, so a Chinese Emperor had these "Auspicious" engraved on gold coins to seek their blessings, and to use them as keys to seal his secret treasures.

If someone is lucky enough to obtain one of his coins, they will have the chance to unlock his treasure trove of immeasurable riches! Now you'll have to find and collect these magical coins to break the Emperor's organ.

These "auspicious" coins are engraved with "Dragon", "Tiger" and "Koi", you can find them in the main game, and when you get them, you will have a chance to unlock the treasure trove. Once you've opened the treasure vault with the "Auspicious" coins, you'll enter the featured game and gain access to their corresponding mystical powers, which are "Dragon - Multiply", "Tiger - Stack", and "Koi - Absorb", which are stacked on top of each other and will multiply your winnings even more! And when you win a full plate in a featured game, you can even win the "GRAND" jackpot buried deep in the treasure trove! And that's the real thrill of - 3 Coin Treasures - !

# HOLD & SPIN

## How to Gain Feature Game?

By obtaining one or more "Auspicious" coins, there is a chance to trigger the Hold & Spin feature game. During the feature game, corresponding feature coins will appear based on the "Auspicious" coins that triggered the feature. Each different feature coin has a different effect, and these effects can stack repeatedly.

## HOLD & SPIN

Triggering Hold & Spin grants 3 respins and an additional 5 coin symbols. Each spin reduces the respin count by 1. If a regular coin or "Auspicious" coin appears when the reels stop, it will be fixed in place, and the remaining respin count will reset to 3. The respins will continue until no new special symbols appear or all reel positions are filled.

# AUSPICIOUS COIN

When you enter the feature game through the Auspicious Coin, you will have the opportunity to trigger these coins on the feature game's reels and use their magical powers to gain wealth. If you are lucky enough, you will have the chance to trigger multiple Auspicious Coins at once to enter the feature game. When they appear on the reels simultaneously, their abilities will stack, giving you the opportunity to create immense wealth!

## TIGER - STACK

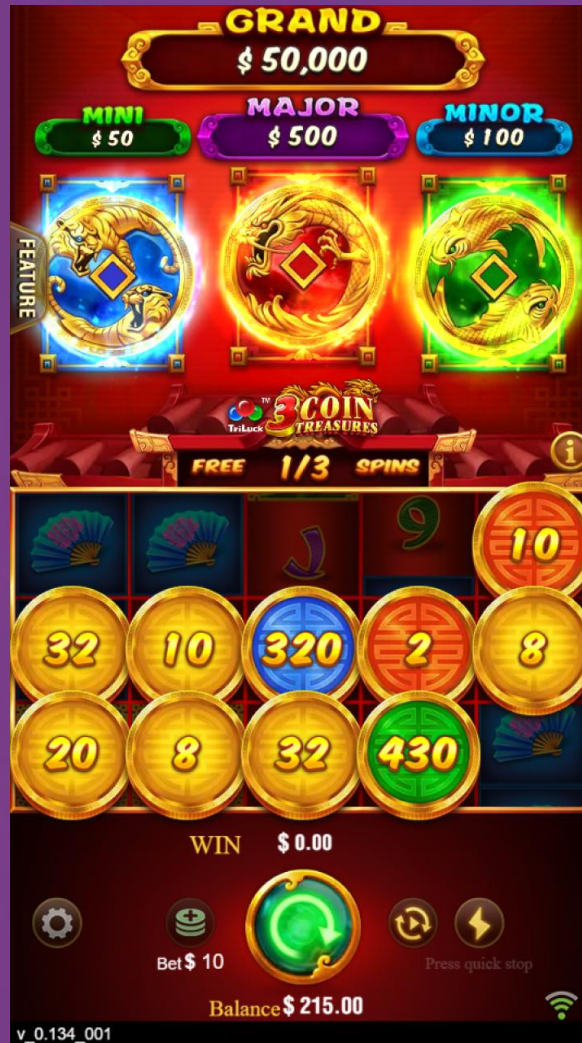

When you obtain the "Tiger" Auspicious Coin in the feature game, it will continuously stack its own winnings, up to a maximum of X100.

## DRAGON - MULTIPLY

When you obtain the "Dragon" Auspicious Coin in the feature game, it will double the winnings of all coins on the reels and then grant itself a random winning value

## KOI - ABSORB

When you obtain the "Koi" Auspicious Coin in the feature game, it will sum up the winnings of all coins on the reels, except itself, and add them to its own winnings.

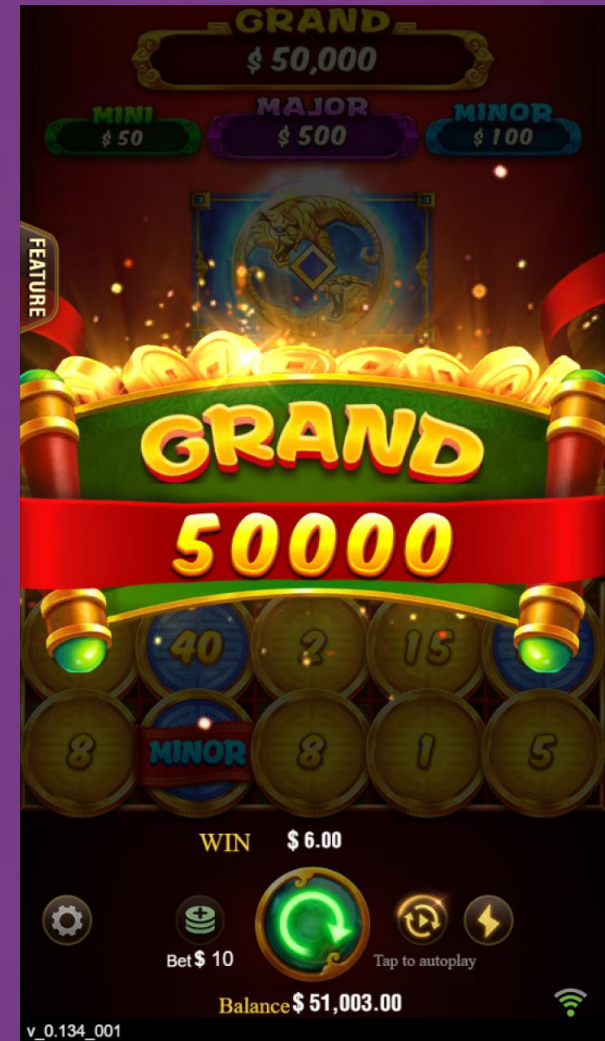

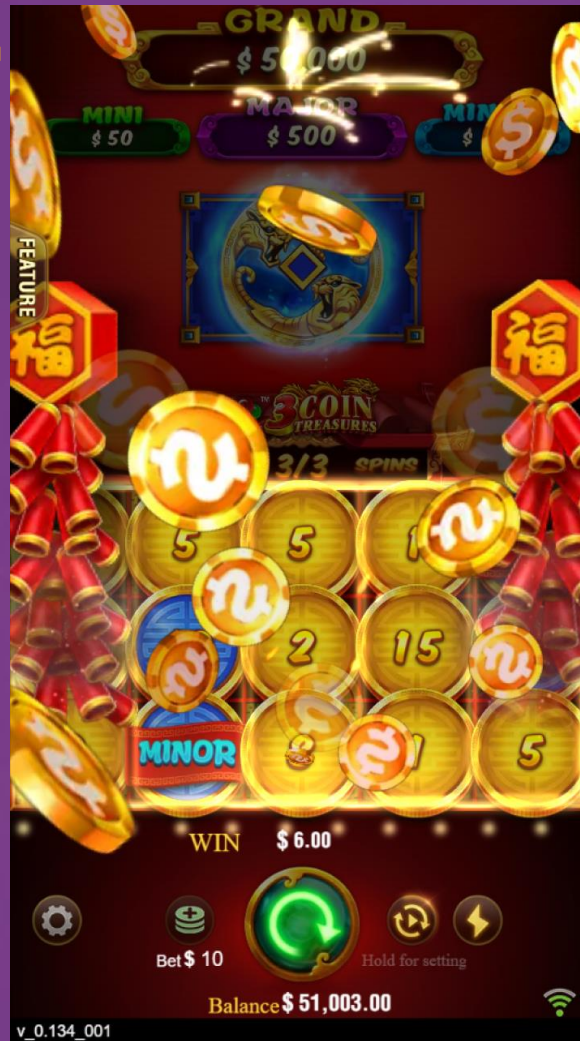

# PERSONAL JACKPOT
