Thor represents the Wild symbol. He can take the role of any other symbol in the game, except for the Scatter and Hammer Coin symbols.

MYSTERY WILD

During Free Spins, there is a chance for a Mystery Wild symbol to land, but only on the first reel. On a non-winning round during Free Spins, the Mystery Wild symbol multiplies the win in the round by x2.

SCATTER SYMBOL

The winnings from 3 scatters are equal to the bet amount. The Gates of Asgard represent the Scatter symbol. Land the Scatter on the first, third, and fifth reels awards five Free Spins. The Free Spins can be retriggered by landing a further three Scatter symbols during a Free Spins round.

THOR'S HAMMER COIN

Six or more Thor's Hammer Coin symbols that land during in a given round trigger the Thor's Hammer Hold & Win feature.

The Thor's Hammer Coin symbols stick to the reels during the Thor's Hammer Hold & Win feature. Awards are indicated on the symbol in currency: x0.5, x1, x1.5, x2, x3, x4, x5, x6, x7, x8, x9 and x10.

COINS OF THOR FEATURE

Any Thor's Hammer Coin or Thor's Hammer Magnet symbol landing on the reels during the Base Game grants a chance of triggering the Coins of Thor feature, which adds Thor's

Hammer Coin or Thor's Hammer Magnet symbols to activate the Thor's Hammer Hold & Win.

THOR'S HAMMER MAGNET

The Thor's Hammer Magnet symbol can collect up to 12 coins, including the MINI, MINOR, and MAJOR Jackpot Hammer Coins. When the Thor's Hammer Magnet symbol is part of the set of symbols that trigger the Thor's Hammer Hold & Win, it remains on its position and collects the values around it. After collecting the surrounding coins up to the maximum of 12, it turns into a static regular coin with its value being the sum of all collected coins. Thor's Hammer GA

Magnet then remains with the other coins that get stuck on the board until the end of the Thor's Hammer Hold & Win feature.

NON-WINNING COIN

This Coin appears during the Hold & Win feature and shows that the position's spin has no winnings.

FREE SPINS FEATURE

The Free Spin feature is triggered when three Scatter symbols appear. Reels two, three, and four combine in a Mega symbol. The mega symbol is treated as if 9 symbols of the same type are on the board with the exception of the Scatter Symbol, considered as one. During the Free Spin feature, if a large Thor's Hammer Coin symbol falls at the center of the board, the player enters the Thor's Hammer Hold & Win feature.

THOR'S HAMMER HOLD & WIN

Six or more Thor's Hammer Coin symbols that land in a given round trigger Thor's Hammer Hold & Win. After the initial spin wins have been paid, all symbols other than Thor's Hammer Coin symbols are shaded. All Thor's Hammer Coin symbols remain on the board and the player is granted three Hold & Win spins. No symbols other than a Thor's Hammer Coin symbol can land during the feature.

If one or more additional Thor's Hammer Coin symbols land on the reels at the end of a Hold & Win spin, the current number of respins is again reset to 3. The feature ends when the number of Thor's Hammer Coin symbols becomes 15 or in case of 3 Hold & Win spins in a row without a new Thor's Hammer Coin symbol landing.

IN-GAME JACKPOTS

During the Thor's Hammer Hold & Win feature, a player can hit MINI, MINOR, MAJOR and MEGA Jackpots! The MEGA 000 Jackpot can be won by filling the entire board with 15 Thor's Hammer Coin symbols or a combination of coins and any of the small level jackpot symbols. With a full board of 15 coins during the Hold & Win feature, the Total Win is formed by adding all the coin values on the board and the 2000x value of the MEGA Jackpot won. Any MINI, MINOR or MAJOR Jackpots turn into a MEGA Jackpot if all reel positions are filled with Thor's Hammer Coin symbols.
