ABOUT THE GAME

Medallion is a 6-row, 6-reel WAYS game with 64 to 46,656 ways featuring Avalanche, Avalanche multiplier, Expanding Wild, Void Respin and Free Spins with progressive multiplier.

The theoretical average return to player (RTP) for this game is 96.13%, depending on what features are activated:

- None activated: 96.03%.
- WILD activated: 96.09%.
- WILD and RESPIN activated: 96.23%.

Symbols can appear in three different sizes: 1x1, 1x2 and 1x3.
The value or effect of a symbol remains the same regardless of the symbol's size.

SPECIAL SYMBOLS

The Wild symbol can land on reel 2, 3, 4 and 5 in the Base Game once the Wild Stone is activated, and the Free Spins.
The Wild symbol substitutes for all regular symbols in win evaluation.

The Void Respin symbol can land on reel 2, 3, 4 and 5 in the Base Game once the Void Respin Stone is activated, and the Free Spins.

The Void Respin symbol is a scatter symbol.

FEATURE STONES

There are three Feature Stones, each corresponding to a feature.
When a stone is activated, its corresponding feature can be activated.
The order for activating the Feature Stones is:

1. Wild Stone
2. Void Respin Stone
3. Free Spins Stone

MEDALLION

The Medallion can appear at the end of any Base Game spin, activating the next Feature Stone.
Activating the Free Spins stone activates the Free Spins immediately.
The Wild Stone and the Void Respin Stone are applied starting from the next spin.
When the Free Spins end, all Feature Stones reset.

AVALANCHE

All symbols in winning combinations pay out. They then disappear, after which new symbols fall down, creating additional win opportunities.
Each consecutive win within a round is multiplied by the Avalanche multiplier.
The Avalanche multiplier starts at 1x and increases by 1 for each consecutive avalanche.
The Avalanche multiplier resets between rounds in the Base Game.

EXPANDING WILD

When the Wild Stone is activated, all Wild symbols landing on the reels will expand to cover the entire reel.
Each Expanding Wild has a Wild multiplier between 2x and 6x.
If multiple Expanding Wilds take part in a win, the Wild multipliers will multiply each other.

VOID RESPIN

When the Void Respin Stone is activated, each Void Respin symbol landing on the reels removes 2-10 regular, non-winning symbols, and then removes itself.

FREE SPINS

The Free Spins are activated when the Medallion activates the Free Spins Stone and 20 Free Spins are awarded.
Both the Wild Stone and the Void Respin Stone are active during the Free Spins.
The Avalanche multiplier is progressive and does not reset between spins.
When the Free Spins end, all the activated Feature Stones reset.
