MIDAS RICHES

ABOUT THE GAME
It's 6 reels and 4/5/5/5/5/4 - 10,000 ways.
Scatter wins are added together

TUMBLE
On any spin any win creates a cascade and creates a tumble! Win again and again with cascading symbols.

The top tracker spins right to left and cascades that way.

GOLDEN TRACKER
On any spin the Golden Tracker will be made active. Any matching symbols from the tracker to the main reel will turn into a golden WILD.

WILDS are only available in reels 2, 3, 4 and 5 FROM the transformation of a symbol from the golden tracker (i.e. a Q symbol in the tracker turns any Queen into a wild).

The Golden Tracker is triggered randomly.

Bonus symbols cannot be converted and Bonus symbols cannot appear on the tracker.

BONUS SPINS
The player has triggered the Bonus Spins with 3 or more scatter symbols in view.

3 = 6 Bonus Spins
4 = 8 Bonus Spins
5 = 10 Bonus Spins
6 = 12 Bonus Spins

This will fade up a special message over the reels and then transition into a full screen pop up explaining the feature. The player can press anywhere to dismiss the pop up which will reveal the Bonus Spin reels. Bonus Spins will play out on a new reel environment. Bonus Spins will then play out with any symbol in reel 2/3/4/5 matching any symbol below transforming it into WILD.

The Golden Tracker always remains active during Bonus Spins.

Full retriggers are available.
2 Scatters will award +2 Free Spins, additional Scatters each award +1 Free Spin.

EDGE CASE: If a symbol such as Q appears in the tracker any Q below turn wild. If there are no Q's, there are no wilds. If the tracker changes symbol because of a win, that new

symbol turns wild and if any previously was created, they stay wild. If another Q landed in view but the Q has moved on from the tracker, then no wild is made.

Symbols in tracker DO NOT turn wild.

GOLDEN BONUS SPINS
NOTE: Golden Bonus Spins play out EXACTLY the same only with an increasing multiplier per cascade. Golden Bonus Spins are awarded ONLY when the Golden Tracker is active on a bonus trigger.

BONUS BUY
Bonus Buy allows the player to buy the Bonus with NO other winnings!
NOTE: Bonus Buy spins the reels and lands in 3 or more scatters with no other pays.

MISCELLANEOUS:
The theoretical minimum payback percentage (RTP) is 93.71%.

The Buy Feature RTP is 93.71%.

The base game average RTP was determined by Monte Carlo simulation of 500 million regular bet spins by taking the total amount won and dividing it by the total amount bet.

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time and cannot be affected by the player's strategy.

The game maximum possible win amount is 13308x bet.

Disclaimer: If an interrupted game is not finished within 90 days, your game will be terminated. If your game gets terminated you will lose every active bet.

Only the highest winning combination per active win line pays. Malfunction of the virtual machine voids all plays and payment during the period of malfunction.

Bonus Games are played at the bet and lines of game which triggered the game.

Wins on different paylines are added.

Payouts are multiplied by current active bet.
