ABOUT THE GAME

Trinity Starlight is a 6-reel, 4-tall ways game, featuring the Treasure Multiplier and Trinity Spins, with Both Ways, Coin Ways and Linked Reels features.

The theoretical average return to player (RTP) for this game is 96.19%.

Matching symbols in any position on three or more adjacent reels, starting from the leftmost reel constitutes a pay way win. Multiple matching symbols on a reel contribute to the winnings multiplicatively. Only the longest matching combination for each symbol is paid. Simultaneous wins are added. Winning combinations and payouts are made according to the Paytable. The Paytable reflects the current bet configuration and changes in accordance with the corresponding bet. All bets and payouts are in currency.

SPECIAL SYMBOLS

The Wild symbol can land on reel 2, 3, 4 and 5 in Base Game and in Trinity Spins. The Wild symbol substitutes for all regular symbols, and for the Coin symbol in win evaluation.

The Coin symbol can land on all reels in Trinity Spins when the Coin Ways Treasure Chest is active. Coin symbols take on random cash prizes between 0.4x and 25x the bet. Coin Ways uses Ways win evaluation for payouts. If the Both Ways Treasure Chest is active, it uses Both Ways win evaluation.

Token symbols can land on all reels in Base Game and in Trinity Spins. The Token symbols represent the Treasure Chest Features. While a Treasure Chest Feature is active in Trinity Spins, the respective Token symbol cannot land. The Token symbols are scatter symbols.

TREASURE CHEST FEATURES

The Treasure Chest Features are Both Ways, Coin Ways and Linked Reels. Any landed Token symbol is collected to its respective Treasure Chest. Each time a Token symbol is collected, there is a chance that Trinity Spins will activate with the respective Treasure Chest Feature active. The chance to activate Trinity Spins is independent of the Treasure Chests sizes.

TREASURE MULTIPLIER

The Treasure Multiplier consists of 10 levels with the following multipliers: 1x, 1.5x, 2x, 2.5x, 3x, 4x, 5x, 6x, 8x, 10x. The Treasure Multiplier has a chance to increase by 1 level each time a Token symbol is collected during the Base Game. The Treasure Multiplier cannot go above 10x. The Treasure Multiplier is reset to 1x after being applied in Trinity Spins.

TRINITY SPINS

Trinity Spins is played after 1, 2 or 3 Treasure Chest Features are activated during any Base Game spin. Activating Trinity Spins with 1 Treasure Chest awards 12 spins, 2 awards 16 spins and 3 awards 20 spins. Activating additional Treasure Chest Features during Trinity Spins awards an additional 4 spins per Treasure Chest. Any wins awarded during Trinity Spins are immediately multiplied by the Treasure Multiplier. Trinity Spins are played with the same Bet configuration as the round that activated the Trinity Spins.

BOTH WAYS FEATURE

During Trinity Spins with the Both Ways Treasure Chest active, the win evaluation is changed to both ways. Paying symbols now pay both from the leftmost reel to the right, and from rightmost reel to left. For each symbol kind, only the longest win combination is paid out. If a win with symbols on all 6 reels occur, the win is only paid out once.

COIN WAYS FEATURE

During Trinity Spins with the Coin Ways Treasure Chest active, Coin symbols can land. Coin symbols uses the currently active win evaluation. The values of the winning Coin symbols are summed together and paid out.

LINKED REELS FEATURE

During Trinity Spins with the Linked Reels Treasure Chest active, between 2 and 4 adjacent reels are randomly linked together each spin. The linked reels have identical symbols spinning and landing.

PERSISTENT STATE

Treasure Multiplier is persistent between rounds, across all bet levels. The probability of triggering certain game events may change during gameplay. As the Treasure Multiplier increases, the chances of triggering Trinity Spins will decrease.
