GAME SHEET v 1.0

GAME DESCRIPTION

Enter the dazzling halls of the Joker's domain—a hidden vault where fortunes are sealed in glittering gold. With familiar symbols like bells, bars, and cherries lining the five fixed paylines, the game combines nostalgic charm with unprecedented modern winning potential.

The action centers immediately around the crucial Joker Coins. The key to unlocking the wealth lies in the Collect Coin symbol, which is exclusive to the middle reel. When the Collect Coin lands simultaneously with any Prize Coin, it instantly sweeps up all displayed values, delivering immediate, satisfying payouts straight to your balance and keeping the core game loop exciting and dynamic.

The pinnacle of the excitement is the Bonus Game—a Hold & Win style sequence starting with three respins. Once landed, the Collect Coin locks into place on the middle reel,

becoming a persistent collection powerhouse throughout the feature. Each time a new Prize or Jackpot Coin lands on the outer reels, the fixed Collect Coin sweeps the entire board clean, collecting all current values, resetting your spin counter, and maximizing the win potential before the next coin drop.

In the Bonus Game, the Joker Multiplier Feature can randomly activate. Multiplier frames are randomly added to the outer reels, starting strong and increasing in strength if coin symbols land in the same spot. Prepare for a fast-paced, high quality experience where the Joker holds the keys to the vault.
