ABOUT THE GAME

Midas Hype House is a 4-3-3-3-4 game with up to 432 ways, featuring, **COLLECT, JACPOTS, MULTIPLIER LADDER, RESPIN & BONUS GAME** features.

The theoretical average return to player (RTP) for this game is 96.50%.
The RTP was calculated by simulating 50000000000 rounds of gameplay.

Matching symbols in any position on three or more adjacent reels, starting from the leftmost reel constitutes a pay way win. Multiple matching symbols on a reel contribute to the winnings multiplicatively. Only the longest matching combination for each symbol is paid. Simultaneous wins are added. Winning combinations and payouts are made according to the Paytable. The Paytable reflects the current Bet configuration and changes in accordance with the corresponding Bet. All bets and payouts are in currency.

Wild

The Wild symbol substitutes for all regular symbols in win evaluations.

Bonus Symbol

Three Bonus symbols trigger the bonus game.
If fewer than three Bonus symbols land, each one adds to the Key meter.

Collect

Two Collect symbols trigger the Respin.
If fewer than two Collect symbols land, and no Coin symbols land, each one adds 1 to the Multiplier ladder.

Coin

Each Coin has a value and can only be won by landing one or two Collect symbols, or in the bonus game.

Jackpot Coins

Jackpot Coins can appear and be won in both the base game and the bonus game.

Multiplier Ladder

When only one Collect symbol lands and no Coin win is triggered, the multiplier increases by one, for up to five. The multiplier activates when you win any feature involving Coins, except Bonus Spins.

Key Meter

Each time a Bonus symbol appears without triggering the bonus game, it fills the Key meter. When a key is unlocked, the next bonus game the player wins will start with one level already unlocked.

Respin

When two Collect symbols land on reels 1 and 5, they expand and trigger the feature. The middle reel expands to add two extra reels. During the respin, only Coins and Jackpots appear and are collected.

Bonus Spins

Three Bonus symbols in the base game trigger the Bonus spins. The player starts with three bonus spins, and each time any symbol lands (except a Non-winning symbol), the bonus spins

reset to three.

The bonus ends when the player has three consecutive non-winning spins or all positions are filled.

The bonus game has four unlockable levels. Any Keys collected from the Key meter are used immediately to unlock rows once the player enters the Bonus Spins.

Special symbols in the bonus spins:

- Midas Collect: collects all Coins in a cross-shaped pattern
- Multipliers: x2, x3, x4
- Jackpots
- Key: unlocks rows
- Non-winning symbol

Unlockable Levels

During Bonus Spins, 4 additional levels can be unlocked.

Each winning symbol reduces the number of Coins needed to unlock every level by one.

If a spin adds a required Coin and lands a level unlock symbol for the next level, two levels are unlocked at the same time.
