ABOUT THE GAME

MINER MOLES is a 5-tall, 6-reel game featuring avalanche, PAY ANYWHERE, BOMB, CART Feature, DIG MULTIS and the BONUS SPINS.

The theoretical average return to player (RTP) for this game is 96.33%.
The RTP was calculated by simulating 50000000000 rounds of gameplay.

This game features a win cap of 15 000x the bet made for the game round.
If the win cap is reached, the current avalanche will end.
If the win cap is reached before BONUS SPINS have started, no BONUS SPINS will be awarded.
If the win cap is reached during BONUS SPINS, the BONUS SPINS will end in that round.

PAY ANYWHERE

Symbols pay anywhere on the screen. The total number of the same symbol on the screen at the end of an avalanche multiplied by any multiplier position beneath them determines the value of the win.
For one symbol kind, only the largest win combination is paid.

All win combinations are added together.
Winning combinations and payouts are made according to the Paytable.
The Paytable reflects the current bet configuration and changes in accordance with the corresponding bet.
All bets and payouts are in currency.

SPECIAL SYMBOLS

The WILD symbol can land on any reel.
The WILD symbol substitutes for all regular symbols in win evaluation.

The BONUS symbol can appear on all reels.
The BONUS symbol is a scatter symbol.
No more than 6 BONUS symbols can appear on the reels.

The BOMB symbol can appear on all reels.
The BOMB explodes in a 3x3 grid around it, removing symbols affected by it.

The CART symbol can land on any reel during BONUS SPINS.
The CART symbol is a collecting symbol that is increased by the value of the multiplier position on which it stops from falling.
The CART symbol pays only when reaching the bottommost row during BONUS SPINS.

AVALANCHE

Any 8+ symbol win activates the avalanche.
BONUS symbols do not activate the avalanche.
CART symbols do not activate the avalanche.
All symbols in winning combinations pay out and disappear, and new symbols fall in creating additional win opportunities.
Avalanche continues until no more winning combinations.

DIG MULTIS

DIG MULTIS are the multipliers shown on symbol positions, they are mentioned as multiplier positions or simply multipliers.
On a new spin all multiplier positions are reset.
Each position where a symbol is removed gains a x2 multiplier.
If a position already has a multiplier and is removed again on the next drop, its multiplier is doubled.
A multiplier position can grow up to a maximum of x1024.

BOMB FEATURE

An exploding BOMB removes adjacent regular paying symbols in a 3x3 pattern.

Multipliers on the positions affected by BOMB get doubled.

All BOMBS will explode before the next avalanche when there are no more winning combinations.

BONUS, CART and WILD symbols are unaffected by the explosion.

CART FEATURE

The CART feature can appear on any reel during BONUS SPINS.

CART symbols stay in their positions across spins.

CART symbols slide down if symbols below are removed.

When the CART lands, its value increases by the multiplier on that position.

The CART is further increased by any multipliers it passes while sliding down.

The CART pays out only when it reaches the bottom of the reels.

The CART cannot land directly on the bottom row.

There can be at most 1 CART per reel.

When the CART exits the reels, it does not trigger an avalanche.

BONUS SPINS

BONUS SPINS are triggered by landing 4, 5 or 6 BONUS symbols in Base Game: awarding 10, 15 and 20 spins respectively.

Multipliers from the Base Game are kept into the BONUS SPINS.

Multipliers are persistent across the feature and reset only after the feature has ended.

BONUS SPINS can be retriggered during the feature by landing 3, 4, 5 or 6 BONUS symbols: awarding 7, 10, 15 or 20 extra spins respectively.
